Education

Fu Jen Catholic University (天主教輔仁大學), BS in Artificial Intelligence & Information Security (資安組) Sept 2024 – June 2028
– Taipei, Taiwan

- Ranked **3rd / 53 students** in department (Average: 89.76/100); Java Programming: **93/100**
- Minor in **Business Administration (企業管理學系)**: Economics, Marketing, Strategic Analysis (2025 – Present)

Taipei Municipal Wanfang High School (台北市立萬芳高中), High School Diploma in Digital Learning Sept 2021 – June 2024
Experimental Program – Taipei, Taiwan

- Recipient of **Taipei City Mayor's Award (台北市市長獎)** admitted via Special Talent Admission

Experience

Cybersecurity Attack-Defense Inspector (攻防檢測員), 2026 Ministry of Education Cyber Defense Exercise 2026
(2026 教育體系資安攻防演練) – Taipei, Taiwan

- Conducted real-world offensive-defensive drills, web penetration testing, and authorization flaw analysis
- Identified critical BFLA/access control vulnerabilities and delivered remediation roadmaps for institutions

President (系學會會長), AI & Information Security Student Association, FJU (輔大資安系學會) – Taipei, Taiwan Sept 2025 – present

- Leading a 20-person executive board, successfully organized 5+ major events (100+ attendees, 300+ reach)
- Managing annual budget allocation, corporate sponsorships, and cross-departmental operations

Certifications

- 2025 iPAS 資訊安全工程師中級能力鑑定 (獲證): 防護實務 87.5 分 / 中級規劃實務 80 分
- APCS 大學程式設計先修檢測: 觀念題 4 級分 / 實作題 2 級分
- Microsoft Technology Associate (MTA): Python Programming Certification (83 分)

Honors and Awards

- 🌐 AMEE 2026 國際醫學教育研討會: 論文共同作者 (LLM 與 RAG 應用研究發表)
- 🏆 2024 打造綠色校園! ESG 永續淨零提案競賽: 銀獎 (Net-Zero Campus Sustainability Proposal)
- 🏆 學術研討會論文發表與最佳海報論文獎: ChatGPT 與 Line Bot 應用研究
- 🏆 科技與生活科技競賽 7 次獲獎: 擔任隊長主導硬體設計 (Arduino + Rhino 3D)

Projects

AMEE 2026: LLM & RAG Application in Medical Education 2026

- Co-authored paper accepted at AMEE 2026 exploring LLM & RAG architectures in clinical simulations
- Engineered contextual vector retrieval, chunking pipelines, and prompt frameworks to minimize hallucinations

Automated API Authorization Scanner (BFLA/BOLA) 2026

- Developed automated scanner detecting Broken Function Level Authorization (BFLA) using Python/FastAPI
- Implemented cross-context token replay algorithms against OpenAPI specs; Dockerized test environments

English_ChatGpt_Line (ChatGPT & Line Bot English Learning Assistant) 2023

- Integrated OpenAI GPT-3 with LINE Messaging API using Django & ngrok for instant vocabulary query workflows
- Awarded Best Conference Paper & Poster Award for reliable LLM prompt engineering in education

Skills

Cybersecurity: Penetration Testing, BFLA/BOLA (OWASP Top 10), Kali Linux, Buffer Overflow, RSA Cryptography, ISO 27001**Programming & AI:** Python (FastAPI, Django), Java, C/C++, C#, SQL, LLM & RAG, Machine Learning (Scikit-Learn), HTML/CSS**Tools & Systems:** Docker, Git/GitHub, Linux (Ubuntu/Kali), Vim, VMware, Arduino, Rhino 3D, Figma
